Professional Summary

I am a junior full-stack web developer with hands-on experience building responsive, user-centered web applications using HTML, CSS, JavaScript, and Python with Django. A graduate of the FNB App Academy bootcamp, I have developed several real-world projects ranging from booking systems to dynamic dashboards. I am also completing the OCI Developer Professional course with Oracle University, expanding into cloud-native development.

With a creative background in media and a strong foundation in tech, I thrive at the intersection of functionality and user experience. I'm adaptable, quick to learn, and passionate about using technology to uplift communities and solve real-world problems.

Technical Skills

Frontend: *HTML5, CSS3, JavaScript, Bootstrap, Responsive Design*

Backend: *Python, Django, REST APIs*

Tools: *Git, GitHub, VS Code*

Databases: *SQLite, PostgreSQL (introductory)*

AI & Automation: *Practical experience with no-code AI tools, OCI Cloud services (in progress)*

Soft Skills: *Communication, Problem-Solving, Teamwork, Innovation, Time Management*

Project Experience

Lorraine's Restaurant Web App (In Progress)

HTML, CSS, JavaScript, Django

- Built a responsive multi-page restaurant site with a real-time booking form, animated UI, and dynamic cart functionality.
- Implemented category filtering, form validation, and modal displays.

Fade Republic Barbershop Website (In Progress)

HTML, CSS, JS, Django

- Created a booking system with a custom calendar and admin approval flow.
- Focused on branding and user experience for a Black South African-owned business.

Task Manager Full-Stack App (In Progress)

HTML, CSS, JS, Django

- Designed a CRUD task manager connected to a Django backend and SQLite database.
- Used async JavaScript fetch to create a smooth task interaction flow.

Scientific Calculator Web App

HTML, CSS, JavaScript

- Built a fully responsive calculator with advanced math functionality and mobile compatibility.

Avengers Stats Visualizer App (Frontend)

HTML, CSS, JavaScript

- Created animated stat bars with a clean, themed layout and reusable components using JavaScript.

Education

FNB App Academy — *Full-Stack Web Development Bootcamp (April – July 2025)*

- Focused on agile sprints, full-stack development, Git workflows, and hands-on project delivery.
- Developed frontend and backend systems using HTML, CSS, JS, Django, Git, and REST APIs.

Oracle University — O*CI Developer Professional Course (In Progress)*

- Training in building and deploying cloud-native apps with Oracle Cloud Infrastructure.
- Covers object storage, databases, DevOps practices, and API integrations.

University of South Africa (UNISA) — *BA in Development Studies (2024–Present)*

Allen Glen High School — *Matriculated in 2022*

Subjects: English, Afrikaans, Maths, Life Orientation, Business Studies, Consumer Studies, Life Sciences

---

Work Experience

Universal Kingdom of God – *Intern Video Editor (Dec 2023 – Feb 2024)*

- Edited short-form content for Woman 2 Woman and I Am Soul Precious campaigns
- Collaborated with production teams to deliver impactful digital media

Camplife Adventures (Remote) – *Assistant to CEO (May – Sep 2023)*

- Handled trip coordination, schedules, budgeting, and communications

Allen Glen High School – *Library Committee Member / Monitor (2021–2022)*

- Assisted with cataloging, daily operations, and fundraising efforts

---

Key Strengths

✅ Eager, rapid learner & self-starter

✅ Strong communication and collaboration skills

✅ Meticulous attention to detail

✅ Curious about emerging tech, especially AI & cloud

✅ Combines creative thinking with technical execution

✅ Thrives in team environments and solo projects

Languages

- English (Native)
- Xitsonga (Fluent)
- Afrikaans (Fluent)
- TshiVenda, IsiZulu, Xhosa (Conversational)

Personal Information

Date of Birth: 11 June 2005

Nationality: South African

Health: Excellent

Criminal Record: None
